Quiz, 5 questions

15/15 points (100%)

Congratulations! You passed!

Question 1

Correct

3 / 3
points

1. Question 1

Supervised learning deals with unlabeled data, while unsupervised learning deals with labelled data.

Question 2

Correct

3 / 3
points

2. Question 2

Which of the following is NOT TRUE about Machine Learning?

Question 3

Correct

3 / 3
points

3. Question 3

Which of the following groups are not of Machine Learning techniques?

Question 4

Correct

3 / 3
points

4. Question 4

"Regression" technique in Machine Learning is a group of algorithms that are used for:

Question 5

Correct

3 / 3
points

5. Question 5

Comparison of supervised with unsupervised learning, is this sentence TRUE or FALSE?

In contrast to Supervised learning, Unsupervised learning has more models and more evaluation methods that can be used in order to ensure the outcome of the model is accurate.
